

I CLAIM:

1 1. A bathtub scrubbing brush comprising:
2 a telescopic handle of adjustable length having a
3 hand-contoured grip at a first end and a swivel at an opposite
4 second end;
5 a bristled brush detachably coupled to said swivel and
6 rotatable with respect thereto;
7 motor means within said handle for imparting at least
8 one of a clockwise and counter-clockwise rotation to said brush;
9 and
10 an electric battery pack within said handle for
11 manually energizing said motor means to operation when desired.

1 2. The bathtub scrubbing brush of Claim 1 wherein said
2 motor means imparts both of a clockwise and counter-clockwise
3 rotation to said brush when energized to operation.

1 3. The bathtub scrubbing brush of Claim 1 wherein said
2 battery pack is rechargeable from electric utility line
3 connection.

1 4. The bathtub scrubbing brush of Claim 1 wherein said
2 swivel is fixedly adjustable in position to angularly orient a
3 plane of rotation of said brush with respect to the length of
4 said handle.

1 5. The bathtub scrubbing brush of Claim 4 wherein said
2 bristled brush includes a rubberized guard facing said swivel
3 from which a plurality of fine, non-ceramic scratching bristles
4 extend oppositely therefrom.

1 6. The bathtub scrubbing brush of Claim 5 wherein said
2 telescopic handle is of plastic composition, of tubular length,
3 and wherein said bristled brush and telescopic handle are of
4 cross-section dimension to seat within a vertical stand when
5 maintained in a non-operating state.
